

Cleaner and Wax Remover

Description

Old Masters Cleaner & Wax Remover is specially formulated to remove wax and polish buildup from interior wood surfaces such as cabinets, paneling, fine furniture and antiques. Over time, wax and polish buildup can create a film that darkens and softens the finish on furniture. Cleaner & Wax Remover dissolves buildup and helps restores wood's natural beauty.

Directions For Use

Test an inconspicuous spot before using to ensure the finish is not lifted with the wax.

1. Dampen a soft, clean cloth with Cleaner & Wax Remover.
2. Rub the surface thoroughly, wiping in the direction of the woodgrain.
3. Repeat steps 1 and 2. Do not apply more coats than the wood can absorb.
4. If necessary, repeat with a clean cloth to pick up any excess remover or stubborn buildup.

After cleaning, apply Old Masters Lemon Oil to moisturize and preserve the wood's natural beauty.

Limited Warranty

Since Old Masters does not control the application of its products, nor is the condition of the surface to which they are applied, a Limited Warranty is provided. If the products do not perform as specified, for whatever reason, Old Masters liability will under no circumstances exceed the replacement of the product.

Product Codes

Available Sizes: Pint (08), Quart (04), and Gallon (01)

50308	Pint
50304	Quart
50301	Gallon

Technical Data

Product Information

Solids by Volume	N/A
Solids by Weight	N/A
Weight per Gallon	6.5 lbs
Vehicle	Solvent
Viscosity at 77°F	14 secs. #2 Zahn
Flash Point	104°F
Recommended Thinner	Do not thin. Used as packaged.
VOCs	776 g/L

Coverage

Theoretical Coverage @ Mil DFT	N/A
Coverage @ Recommended DFT	N/A
Recommended DFT Per Coat	N/A

Dry Time

At 70°F and 50% Relative Humidity	13 minutes
